

# 4 Bonuses for buying MugJam (only available during launch)

## 1. Video AutoPlayer For Any Website (Works With Youtube and Vimeo)

After Google’s ban on auto-playing videos with sound, it has become extremely hard to keep your visitors engaged. With that in mind, our team has custom created a unique solution for auto-playing videos. With this app, you can enter your YouTube or Vimeo video URL and size for the video. Once done, the app will generate a unique embed code that you can paste on any web page. That’s how easy it is to add auto-playing videos on your website.

## 2. Floating Video Player For Your Website (Works With Youtube and Vimeo)

Ever seen Facebook’s picture in picture videos? The moment you scroll down, the videos on Facebook will stick out and follow you. That’s the idea we wanted to apply to our webpages too. And that’s how our team created this app from scratch that will give your videos the power of sticking out and following the viewers as they scroll through your pages. This app works with Youtube as well as Vimeo videos.

### 3. Image Editor with Commercial Rights

Ever wondered why it is so hard to edit photos? A basic edit can take several minutes and if you do not have experience with tools like Photoshop, prepare to get frustrated because even the basic edits can take forever. We've created this custom tool to solve this problem. It is extremely easy to use and we won't take your photos hostage. In fact, we don't even store your photos on our server. So this app is not only easy to use but also highly secure. You can do simple stuff like cropping or adding a filter or you can do advanced stuff like layers and grading. This all in one image editor is the last image editor you'll ever need. And you get a **COMMERCIAL LICENSE**, too.

### 4. 1M+ Stock Videos, Photo + Vectors With Commercial Rights

There are never too many professional images or videos that we can use on our projects. With this online app, you can search and download the highest resolution videos, photos, and images in every category imaginable. This is your one-stop destination for all your stock footage needs. And you get full commercial rights so you can use these in any of your projects.
