

(1) Social Media Viral Content Builder for Wordpress

Ultimate plugin for making content viral.

Get ready to rocket your content into the viral stratosphere. This automated plugin developed for WordPress can hide any content so that in order to read it the user must share it via social media channels. This has the potential to bring much more traffic to your content and turn it viral.

What does it do?

With our plugin you can stop visitors from reading a part, parts or an entire article before sharing it via Facebook, twitter or Google +. This means you can hide a chart that shows the key elements of your post, a paragraph with the answer to all there problems, images, file downloads, any individual piece of text can be hidden until the visitor shares your article with their friends.

Imagine offering a free pdf with the top 10 marketing success tips and having visitors share the article before being able to download it. How about a cooking recipe that users need to share before getting the complete ingredients. Mondays Workout to lose 10 pounds a week? BOOM hidden. There are endless ways that this plugin can be used to compel visitors to share the article socially. This plugin has helped clients increase shares by as much as 1,000% in a few days and helped increase readers/visitors.

Additionally you can use this plugin with our other products to create a 360 Degree Automated marketing process for your websites success.

Our Viral Content Builder plugin for turning your content into viral building powerhouses by blocking certain pieces of your content so that visitors must share it to gain access to important images, text, charts, videos, etc.

And our Twitter Manager to automate the process of getting you followers using targeted Hashtags, Keywords or even sniping followers from your competitors.

(2) Sharelock: Unlock Content with Visitor Number

In the world of internet marketing, there is one thing that everyone needs to become successful and that is traffic. Without traffic, you will not gain subscribers to your mailing list, make sales for your products, get AdSense clicks or anything else you wish to achieve from your website. Without traffic, you have no business and certainly no income coming in. And there's where Sharelock comes in to help you.

As you may already know, viral marketing relies heavily on word of mouth marketing. There is no limit on the amount of traffic you will get as you wouldn't have known how many people are spreading the message for you. Most people are curious, if they receive the message from somebody they know or trust, they are most likely eager to find out what's the "buzz" behind. One of the most common technique to go viral is giving something for free. But why not giving something premium for free but with an extra challenge. In fact people loves challenge.

With Sharelock, you can easily lock and hide partial or all of your content. And the best part is that it can only be unlocked with enough visitors. Sharelock will let user unlock and unhide partial or all of your content by driving traffic to your post/page.
